*Windwalker Group is an award-winning 8(a) small business with more than 25 years of experience in getting our customers ready – ready to grow, ready to thrive, and ready for what’s next. We offer physical and cybersecurity solutions that protect and prepare. We deliver custom learning and training solutions that guide teams to success. We offer professional services solutions that help our customers meet a variety of business objectives.*

## OUR SERVICES

We offer a portfolio of solutions that ensure your organization is prepared to thrive.

### TRAINING & INSTRUCTIONAL DESIGN

We consult with customers to design and develop custom, effective training solutions. Together, we create experiences that ensure a learner retains information and recalls it when they need it.

### PHYSICAL SECURITY

We offer world-class physical security support and services, from risk assessments to armed guard services. We understand the multiple layers of interdependent systems required for effective physical security programs.

### ONLINE LEARNING

Professionals today work from anywhere; they should be able to learn from anywhere too. Our eLearning solutions leverage cutting-edge design, multi-media, visualization and gamification strategies and technologies with incredible results.

### PROFESSIONAL SERVICES

We help organizations meet a variety of business objectives – from call center support, to case management, to military medical readiness, to IT services, or staffing. If it involves responding to a mission-critical challenge quickly and with agility, we can help.

### CYBERSECURITY

Our experienced professionals work diligently with customers to protect their employees, intellectual property and infrastructure from cyber-related threats, and to proactively manage cyber risk.

### RESEARCH & EVALUATION

Our work in survey management and design, performance measurement and evaluation means our customers have a clearer picture of the opportunities in front of them, and that they’re ready to take them on.

# WHY CHOOSE US

## A DIFFERENT MINDSET

We think differently. We're creative and agile. We approach challenges with the mindset that we will find a way to accomplish the task at hand; to make our customers successful. We innovate for our customers all the time, and we encourage innovation internally.

## THE EXPERIENCE MATTERS

For us, "experience" is about our expertise and our proven track record of delivering results for our customers. It's also about the experience our customers have with us. We value authenticity and relationships, and we want our customers to enjoy the experience of partnering with us. Our people are a huge part of that; we hire people who are focused, ready and driven – and we create an environment where they can thrive.

## RELATIONSHIP-DRIVEN

We take a consultative approach. We work with our customers to develop customized solutions that meet their needs. We work hard to understand their problem and where they want to be. From that exchange of information, we build a solution that delivers results. We earn their trust and confidence, and we work to build both every day.

## PERFORMANCE & RESULTS

A sincere focus on exceptional performance has and will continue to fuel our growth. We hold ourselves to very high standards, and don't believe there is a trade-off between doing great work and greatly enjoying doing it. We pride ourselves on compliantly and comprehensively performing contractual work statements.

# OUR CUSTOMERS

Our customers trust us with important tasks – training, security, research and more – when the stakes are high. We take on big challenges, because we know our work has a real impact.
